CEUs for Medical Professionals

The Pathways to Education program is a targeted educational series provided as a courtesy for the payor community, including utilization review nurses, nurse case managers, claims professionals, and others involved with claims and case management for today's rehabilitative orthopedic patient.

In order to provide an educational forum that meets the objectives of a range of professionals, the Pathways to Education course curriculum has been developed along two tracks:

Clinical Advances

- Physician-taught
- Focused on surgical and rehabilitative procedures associated with the top five common disease states in orthopedic rehabilitation

Therapeutic Advances

- Taught by industry professionals
- Focused exclusively on the therapeutic modalities relevant to orthopedics and spine medicine

- Nurse case managers
- Utilization review nurses
- Disability specialists
- Occupational health nurses
- Claims managers
- Claims adjusters
- Rehabilitative specialists
- Education coordinators

To learn more about the Pathways to Education program and how we can tailor a course to meet your specific objectives, please call

Clinical Advances Curriculum

Pathways to Education's *Clinical Advances* courses are provided as a courtesy for medical and claims professionals. Each is designed to maximize attendees' knowledge of advances in orthopedic and spine surgery. In order to provide our audience with the most up-to-date educational experience, *Clinical Advances* courses are taught by board-certified orthopedic and spine surgeons.

Each *Clinical Advances* course includes the following:

- History and etiology of the specific disease state
- Clinical examinations, tests or other diagnostics routinely performed to confirm the patient's diagnosis
- Advances in orthopedic and spine surgery, including a discussion of potential risks and complications
- Orthopedic rehabilitation of postoperative or chronic pain patients
- Routine treatment modalities prescribed

The *Clinical Advances* courses focus on five primary disease states relevant in orthopedics today. Other topics may be prepared for presentation as specifically requested by the client. The series includes:

Track	Clinical Advances Course Title
1	Anterior Cruciate Ligament (ACL) Surgery of the Knee
2	Rotator Cuff Repair (RCR) Surgery of the Shoulder
3	Clinical Advancements in Spine Surgery
4	Management of the Patient with Chronic Pain
5	Osteoarthritis of the Knee

Each Pathways to Education *Clinical Advances* program is approved for one to two hours of continuing education credit. Courses may be accredited by CCM, CMSA, CRC and/or CDMS. Other accreditations as requested.

Our speakers are local area orthopedic and spine surgeons with relevant clinical experience in the specific disease state. All are highly regarded in the payor community, with extensive expertise regarding clinical outcomes associated with orthopedic and spine rehabilitation.

Pathways to Education's *Clinical Advances* programs are designed primarily for presentation on-site at your office. Courses may also be held at our state-of-the-art surgical lab located in Irvine, CA.

Your Pathways to Education representative will arrange for all logistical considerations, including audio/visual and written materials, refreshments, speakers, and certificates of completion. We are a proud member of AdvaMed, whose compliance guidelines are followed throughout the Pathways to Education series.

Therapeutic Advances Curriculum

Pathways to Education's *Therapeutic Advances* courses are provided as a courtesy for medical and claims professionals. Each is designed to maximize attendees' knowledge of clinical modalities and devices in orthopedics today. In order to provide our audience with the most up-to-date educational experience, *Therapeutic Advances* courses are taught by industry professionals experienced in the application of therapeutic modalities.

Each *Therapeutic Advances* course includes the following:

- History behind the use of therapeutic modalities
- Clinical indications for use of these modalities
- Competitive analysis and HCPCS coding
- Patient application, including a discussion of potential risks and contraindications
- Frequently asked questions about modalities

The *Therapeutic Advances* courses are focused on the top five modality categories relevant in orthopedics today. Other modality courses may be prepared for presentation as specifically requested by the client. The series includes:

Track	Therapeutic Advances Course Title
1	Electrical Stimulation – An Introductory Comparison of Electrical Treatment Modalities
2	Bone Growth Stimulation on Patients with Delayed Union Fractures
3	Increasing Range of Motion through the Use of Continuous Passive Motion (CPM)
4	Orthotics 101 – Discerning Differences Between Ligament and Osteoarthritic Bracing
5	Continuous Cold Therapy – A Therapeutic Primer on Cold versus Heat Therapy

Each Pathways to Education *Therapeutic Advances* program is approved for one to two hours of continuing education credit. Courses may be accredited by CCM, CMSA, CRC and/or CDMS. Other accreditations as requested.

Our speakers are industry professionals with relevant practical experience in the use of modalities. All are highly regarded in the payor community, with extensive expertise regarding clinical outcomes associated with use of these modalities.

Pathways to Education's *Therapeutic Advances* programs are designed primarily for presentation on-site at your offices. Course may also be held at our state-of-the-art surgical lab in Irvine, CA.

Your Pathways to Education representative will arrange for all logistical considerations, including audio/visual and written materials, refreshments, speakers, and certificates of completion. We are a proud member of AdvaMed, whose compliance guidelines are followed throughout the Pathways to Education series.
